## Consumer Feedback

<b>How would you rate your experience with NCH :</b>	Unsatisfactory
<b>What did You find Unsatisfactory:</b>	Others
<b>Remark:</b>	Think about the arbitrariness and Tyranny of the companies doing business on the soil of this largest democracy in the world who are violating consumer rights of the citizens in the country and not accountable to the government of India is a mockery of the law. Whether the government is able to protect the consumer rights of the citizens whose departments are teethless before such

companies which is showing the vulnerability of the citizens whose rights are being infringed by these tyrants. It is most unfortunate that most of the companies registered to the government of India are targeting the innocent and gullible citizens and government are handicapped to take action against those fraudulent companies. It is quite obvious that corrupt companies have no ethics but it is obligatory duty of the government to protect the rights of the citizens of the country if they are is good governance in the country but it seems that we are ruled by sheer anarchy.
